

"I have not departed from the command of His lips;
I have treasured the words of His mouth more than
my necessary food."
Job 23:12

Nippon NEWSFLASH

Busy, Busy, Busy...but what a blessing and encouragement the past 2 months of support raising have been. God is faithfully providing for all my needs and growing my support team! I am learning so much about waiting and trusting in God to build my team and for His timing for when I will return to Japan. I am super excited to announce that right now I am at 80% of my support goal! Thank you so much to those of you who have continued giving and praying and those of you who have begun to give and pray!

Senri's challenge...It has been two months now since Senri returned to Japan from America. She is now working two jobs to earn money to go to the Word of Life Bible Institute in Korea in September. Before she left our home, she wanted me to hold her accountable to doing her quiet time. Even with her busy schedule she sends me her quiet time observations and applications! I have been challenged by her thoughts and questions. She still causes me to look deeper into God's Word. I'm so thankful.

Pray for Senri to have opportunities at work to share her faith with her co-workers. Pray for boldness and courage to talk to them about how God has changed her life!

During chapel time, the students and staff come up with creative ideas to help everyone learn the memory verse of the week.

This is Chip, a current student, and Joe. I'm very thankful for Joe's willingness to cook for the staff and students while I am support raising!

Prayer & Praises:

Continue to pray for travel safety as I meet with more people and churches to share about the ministry in Japan!

Pray for the students in Japan at SYME as they finish their first term of the year. Pray they begin to open up to the staff and allow God to change them.

Praise God for how He continues to grow my support team and trust in Him!
